LOW WATER AT LOUISVILLE.

(Friday's Courier-Journal.)

Gradually demoralizing the river traffic, the low water reached the climax of its work when not a packet cleared the local wharf yesterday. The Tell City, the last boat of any size to remain in the trade, was compelled to "tie up" upon her arrival here yesterday morning. As the Louisville & Cincinnati Packet Company did not have a light-draft boat here which they could substitute for her, the day passed not only without any of the Evansville packets, which have been out of commission for several weeks, clearing, but also without a packet bound for upper river points leaving. Although traffic at times has been suspended because of the ice in the river, yesterday was the first time in a number of years that the low water had reached such a stage that not a boat cleared.

REV. SIMPSON ATTORNEY FOR RUSSELL PAUL.

County Judge W. H. Rice appointed Rev. J. W. Simpson as attorney for Russell Paul whose examining trial is to be held next Wednesday morning at 9 o'clock.

Julian Adair, of Millersburg, has been chosen by J. W. Newman, Commissioner of Agriculture, to give lectures throughout the State on poultry. He will leave in a few days for the Western District to take up the work.

PRAYERS

To Be Offered at Episcopal Church Tomorrow Morning for Peace of World—Public Invited to Attend

The services at the Church of the Nativity Sunday morning will be of a special order, in accordance with the request of the President that prayers may be offered up to Almighty God that out of His wise providence the present wars throughout the world may cease, and peace be brought to the distracted lands.

Come and pray with us as citizens and churchmen. You will be welcome. The prayers of God's people availeth much.

The following is a prayer authorized by the Bishop of the Diocese, which you may use in your private devotions:

O God Almighty, that rulest and commandest all things: So intervene between the nations at war, that the progress of Thy Kingdom shall not be set back, and that the wrath and greed of men shall be made to praise Thee. Preserve our land and people inviolate; and may our country do in righteousness the things that make for peace. Minister in Thy infinite pity to those who shall suffer the calamities of war. And finally establish everywhere the reign of the Prince of Peace, in whose name we shall ever pray for the peace of the world, Thy Son, our Savior, Jesus Christ. Amen.

A most cordial invitation is extended to the public to attend this service.

J. H. FIELDING, Rector.

ALLIES ADVANCING

Pushing the Germans Back Steadily—Tremendous Carnage Continues

Belgians Repulse the Teutons Storming Antwerp

LATEST WAR BULLETINS

London, England, Oct. 2.—The battle of the Aisne—as it is still called, although the armies contending in it have spread far beyond that river—now has been in progress just three weeks and no decision has been reached. Reports from Paris that the allies' operations were about to succeed were premature. From all appearance there must be more hard fighting.

The heaviest blows are being given and taken in the western area where, according to today's French official communication, an extremely violent battle continues, especially in the Roye district, where the Germans have concentrated. The communication added that the action was extending more and more northward and that the fighting front extended to the district south of Arras.

Petrograd, Oct. 2.—The General Staff has given out the following official communication:

"The Russian troops have continued to repulse the enemy from the boundaries of the Governments of Suwalki and Lomza. The engagement has been very fierce west of Symon.

"The German troops that were attacking Ossewitz are retreating hastily to the North. Considerable forces of the enemy, of which the bulk arrived from the West, are concentrating in the districts west of the Governments of Piotrkow and Kielce.

"The Russian cavalry and vanguard are reconnoitering energetically through all that region, impeding through vigorous attacks the movement of the enemy. The Germans always endeavor to use the highways in Russian territory because the other roads, being rough, paralyze their artillery trains.

London, Oct. 2 (1:10 p. m.)—Unless all signs are awry, the German armies in France, or at any rate most of them, are nearing the completion of their round trip. This, it is held here, is the only conclusion—hinted at even by the Berlin newspapers—to be drawn from the reports, both official or unofficial, of those on or near the scene of action.

It is evident that the progress of the Allies on their left is considerable, while the hole through which the Germans might have pierced the line of French fortresses on the Meuse river side has been stopped.

The fierce battling around the heights of Roye, to the north-west of Noyon, seems to have ended in favor of the French. The heights were captured by Gen. von Kluck's men on Wednesday, but on Friday, according to a French report, the Allies regained control of the position.

A correspondent of the Central News at Calais, who has returned to that city from a tour in the vicinity of the Allies' left, says:

"Without disclosing military secrets I can say that I have seen many things to remove any misgivings as to the outcome of the battle. The moment is near when the curtain will be lifted on the greatest drama ever seen in war. "The position of the German right wing on Wednesday was such that a portion lying between Lassigny and Chaulnes was in extreme danger.

Over Half Million People In Brussels Will Lack Food.

London, Oct. 2.—Seven hundred thousand persons in Brussels are facing starvation, according to Hugh Giggson, the secretary of the American embassy, who is now in this city.

The supply of flour in the Belgian capital will be exhausted today and other staples are virtually all consumed. The last apportionment of flour to the citizens of Brussels will be given out this afternoon.

Efforts to get food in from Antwerp have failed. Inasmuch as Brussels is in charge of the Germans, it is in effect German territory. Neutral nations could not undertake to supply food to Brussels, even if transportation facilities were not practically cut off because of military operations.

Cologne Defense.

London, Oct. 2.—A despatch from Copenhagen to the Times declares that extensive preparations are being made in Cologne for the defense of the city against a possible attack.

Latest War Bulletins.

St. Louis.—A rush order for 110,000 barrels of flour was placed with a local milling company by representatives of one of the warring European nations, the identity of which was not disclosed. This is the largest single sale of flour ever made here. The flour will be made of Kansas wheat and will require 540,000 bushels.

London.—The British War Office has issued a call for 1,000 expert railroad men to assist in the operation of the French railways.

HIGH C. & O. OFFICIALS TO ATTEND LEXINGTON TROTS.

(Lexington Leader.)

President George W. Stevens of the C. & O. Railroad, with a party of friends will arrive in Lexington on Sunday night to attend the Tots. It is known that the party will include Garrett B. Wall, assistant to the president and Mr. John K. Branch, vice president of the Merchants' National Bank of Richmond and one of the most prominent tobacco men in Virginia, but the names of the other members of the party are not known here. Mr. Stevens writes Lexington friends that he has been trying for several years to make his arrangements to attend the Tots but up to this time he has always been disappointed but that this year, he has a "clear track" to Lexington. The Stevens party has reserved a box for the opening days of the Tots, and the outing will also include an automobile tour of the Blue Grass region and a visit to the various famous farms in this section.

Lexington, Ky., Oct. 2.—It was announced that definite plans had been made for the inauguration of a State-wide prohibition campaign at the 34th annual meeting of the Woman's Christian Temperance Union, which begins at Winchester Thursday.

BODY TO BE BROUGHT HERE TOMORROW.

The body of Mr. Bruce Hammond, who died in Portsmouth yesterday morning, will be brought to this city tomorrow morning and taken to Goddard, Fleming county, for burial.

CLAUDE TUCKER

Arrested and Brought to This City Yesterday Afternoon—Charged With Seduction of Mable Paul—Gave Bond for Appearance Next Wednesday.

Mable Paul, the mother of the baby her brother Russell drowned in Baldwin's pond last week, yesterday made affidavit that Claude Tucker, of near Slipup, was the father of her child. The affidavit was made before Squire Fred Bauer at the Paul girl's home in William street.

Constable James McNamara went out yesterday afternoon and brought Tucker to this city.

Upon his arrival his bond was fixed at \$200. He gave bond with Mrs. Lilian Gault as surety. Tucker is a tenant on Mrs. Gault's farm. He denies having any knowledge of the case. Tucker is about 24 years old and has been married about six months.

SUGAR THE BEST REVENUE PRODUCER.

The Administration has an opportunity to kill with a single stone two of the plumpest birds ever offered as a target to any political marksman. Instead of a special "war" tax, which would be unpopular and a direct burden upon all classes of people, to meet the expected decrease in tariff revenues, why not restore the duty on sugar, and thus at one and the same time put \$50,000,000 annually into the Treasury and save the Louisiana cane and the Colorado beet sugar industries? New England would witness this "favoritism" to a Southerner and Western product with no petty jealousy, believing, as she does, in sensible and adequate protection to all American business regardless of sectionalism. That the restoration of the Payne bill rates on sugar would add largely to Uncle Sam's pocket-book at a time when loose change threatens to become scarce, is an argument that clinches. While sugar importations from Germany, France and Russia, great beet-producing countries, would hardly be possible, we can continue to get what we need from Cuba and Java in neutral bottoms or our own. Why throw away a certain and sure source of national income that imposes no burden on the individual, and adopt a tax that will be perceptible to everyone?

Sugar has gone up in price rapidly since the war as well as long before, because the trust and other cane refiners control the situation. The supply of raw material comes altogether from Cuba and other countries not affected by the war. The refiners put up the price though they did not pay anything whatever in the way of an advance for the raw materials used. This is what the country will always be subjected to as the result of destroying the home supply that comes from the growing beet product and the Louisiana and Texas cane. It is the result of ruinous Democratic free trade legislation.

It is said that powerful lobbies are at work in Washington to persuade Congress to make big appropriations for rivers and harbors, and pass the Southern war claims bills which will call for many millions. And yet they are talking about taxes to meet a probable deficit in the government revenues. If the Democratic leaders in Congress had let the sugar tariff alone, and reduced their extravagant appropriations by \$50,000,000, there would be no need of war taxes.

The Philadelphia Public Ledger says: "Sensible people will be gratified that the President has denied the statement attributed to him that the European war would be a fine thing for the United States and would help our trade. With our best customers fighting instead of buying there is nothing to shout about. The country is in good shape, but the catastrophe in Europe is certainly not a benefit."

The Western Railway engineers' demand for a wage increase is assailed in a petition sent to President Wilson by hundreds of other railroad employees, who urge that they constitute 90 per cent. of all the persons employed by railroads, and their claim for increased wages should be considered in preference to that of the engineers who are already well paid.

THE NEGRO OF TODAY.

Next year the negro race will have enjoyed a half century of freedom. This anniversary is deemed of such importance that Illinois has appropriated a large sum of money properly to observe the event. The African race has reason to feel no mean satisfaction over its progress. Today negroes, who numbered but four and a half millions during the civil war, and who number ten millions today, are on the whole, no longer dependents. They own in the aggregate 20,000,000 acres of tillable land. They are admitted into scores of industries. In many cities they afford a considerable part of the dependable force available for skilled and rough labor. In education they have made astonishing strides. The percentage of illiteracy having been reduced in fifty years from 90 per cent. to less than 30 per cent. Their churches have increased from 400 to 36,000. They publish nearly 400 newspapers and periodicals. They operate 100 insurance companies and 72 banks, and in many other lines of endeavor they have made impressive advances.

The white race still has much to do in behalf of the negro. The negro in his turn is doing much to help himself. In some portions of the country he is still looked upon as a problem. Yet in the aggregate the black race has made long strides ahead, and the wisdom of giving it education needs no defense.—Times-Star.

VOTE FOR BETTER COUNTRY.

Money invested judiciously in roads adds so much to the value of the property in a community that every dollar invested comes back to the treasury in the form of additional taxation. Good roads attract new settlers, encourages improvement and enrich a community. They bring in more people to help pay taxes and reduce that rate of taxation while increasing the aggregate amount collected. Money paid merely for salaries of organization officials never comes back in any form. Good roads are arteries of trade, the promoters of value and the basis of prosperity.

MODERN HISTORY.

This King George thanks the British colonies for their help. It was different in 1776.—Springfield Republican.

The free trade party knows that it would be defeated in Maine if the advocates of protection were united; but with Progressives in the field for Congress the Democrats assert that they will be successful. Two years ago the Republicans, including those calling themselves Progressives, were united. There is no reason now for division that did not exist then, while there are many weighty reasons for union. The running of separate candidates by the Progressives means upholding the Democratic tariff law and the free admission of Canadian and other products much to the injury of Maine and the entire country.

Law under the heel of business, if it ever was may have been bad, but it is no worse than business under the heel of freak laws. Either way, the people pay more than they should.—San Francisco Chronicle.

The rushing into this country of foreign goods and produce, must lead to, as a matter of course, the foreign rate of wages—if any—for workers in the United States.

A recent moving picture is entitled "War Is Hell." Free-Trade is a stagnant picture and is hellish war on American work and American wages.

Ice is set down as frozen water or other fluid. Free-Trade is set down as melted industries.

PUBLIC SALE

If not sold privately previously, and considering the serious condition of my eyes, I will offer at Public Sale to the highest bidder on October 14th, 1914, at two o'clock, p. m., at the courthouse in Maysville, Ky., my farm, containing one hundred and fifty-two acres, two rods and twenty-six poles. It is situated on the Minerva and Dover turnpike, about one and a half miles from Fern Leaf. This farm has on it a residence of nine rooms and another house of five rooms, and the necessary out-buildings; also a splendid tobacco barn, eighty-four feet long, a stripping house and large ice house. It is well fenced, with woven wire fence, and well watered. Is all in grass but about fifteen acres, which is in corn. I have no hesitancy in stating that this is one of the best farms in that location of the county, all of the land is walnut, sugar tree and ash, grows a very fine quality of tobacco. There is also an abundance of locust timber and sufficient fruit. It is convenient to one of the best schools in the country, with four school wagons passing to convey the children to school, also several churches near, and is in a splendid neighborhood, which is very essential in seeking a location. The farm will be offered as a whole and in two tracts, as it can be divided and make two nice-size farms with a house on each. Possession given November 3rd, 1914, with the exception of the corn land, which will be when the corn is cribbed. Terms of sale, one-third of the purchase money November 3rd, 1914, and the other two-thirds in one and two years, with a lien retained on the land and six per cent. interest per annum on deferred payments. If the purchaser prefers they can pay all cash. The right is reserved to reject any and all bids if not satisfactory.

Any one wishing to buy will please call at my rooms at the residence of Mr. P. W. Wheeler, 221 West Second street, Maysville, Ky.

Quick on the Trigger With a Snap-Shot Eye

THE crack trapshooter has to be a man with steady nerves and muscles absolutely under control—always ready, at the sudden jerk of a string to swing his gun into place and bring down his clay pigeon. This means trained, not to the minute, but to the split-second. He takes no chances with his nerves.

We present the names of some of these crack shots who smoke Tuxedo. They like to smoke; but they take no chances on a tobacco that might "throw them off."

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

is purposely made to give you all the benefits of the highest grade smoke. It is made from the very finest tobacco Kentucky grows—ripe, mellow, sweet and mild old Burley, aged right up to perfection-day. Then treated by the original "Tuxedo Process," which takes out the sting, makes Tuxedo smoke cool and slow, and guarantees that it cannot bite your tongue.

Tuxedo has had many imitators; none has ever equalled it in sheer quality and smoking-value.

UNITED STATES

Has One of the Most Venerable Governments on Earth.

(Philadelphia Ledger.) A young Austrian said to me a few days ago: "Germany will not become a republic, even if this war crushes her. Her Kaiser's family has 200 years of rule behind it and the people want him."

The Hohenzollerns have 200 years of rule in Prussia, but the German imperial Government is only 44 years old. Other parts of Germany might out-vote Prussia in forming a republic.

It may astonish you to note how very few countries have an older Government than the United States. One land may be new, but the Government is one of the most venerable on earth.

China's republic is a baby but a few years old. Japan's present regime dates back only 45 years. Italy's kingdom is about the same age, and Portugal's republic has been in existence less than a decade.

Turkey's constitutional Government which came with a new Sultan, and Persia's Government are also political infants.

The French republic is no older than the German empire, and the revolution that split Norway and Sweden happened since Cuba became free.

Of the 20 independent nations to the south of us in America, every one is younger than the United States. The Australian commonwealth and the South Africa union are mere children.

England, Russia, Austria and Spain have ancient regimes, but the American republic cemented here in Philadelphia, has witnessed the rise and fall of nearly all the other important Governments on earth.

The Hon. John H. Westover, former president of the Kentucky Press Association and former County Judge of Grant, has been nominated for State's Attorney at Yuma, Ariz., on the Democratic ticket. The nomination is equivalent to an election to the office, which is one of the best in that district, paying \$2,500 per annum. Judge Westover has been a resident of Yuma for the last six years.—Lexington Leader.

The advantage to those who peddle intellectual mush is that there always is a market for their product.

MASON COUNTY AND HER COUNTY SEAT

It has been alleged that there is an estrangement, a want of cordial, good feeling, between rural Mason county and urban Mason county, between the country people in Mason county and the dwellers in her county seat. There can be no basis in fact for any such state of affairs, if any such state exists, and the sooner all those who fancy that such is the case analyze the proposition the better it will be for all concerned.

It is of the greatest advantage to a people to have ready market for what they have to sell and to find well-stocked markets of the things they wish to buy. Both these conveniences and advantages the city of Maysville, an integral part of Mason county, furnishes to the rural population of the county, Advantages Mutual.

It is just as important to banks to have depositors and the well-stocked stores and shops to have customers as it is to producers to have markets. These the rural population of Mason county in large measure furnish the banks and stores of Maysville. Each exists for the convenience and good of the other. The country would be greatly inconvenienced without the city and the city would be put out of commission in less than six months without the county. But if some ill-advised, short-sighted persons insisted on creating a state of siege or boycott, so long as the county people raised food stuffs, had their country towns, cross road stores, stations on the L. & N. and C. & O. railroads and mail order houses the country people could live. But nobody wants any such state of affairs nor anything that hints at an estrangement of feeling or antagonism of interests. There was a time not so many years ago when the country people got from the city people a genuine heart stab, a blow that surprised and hurt as the city people little realized; but that is in the past. May no such thing happen again.

Sensible If Not Magnanimous. The people in the country want their county seat, their trade center, to be comely, attractive, thrifty, with well-stocked stores and thriving trade. It is to their convenience and advantage that it should be so. As the Ledger suggests, they are "sensible if not magnanimous," but they are magnanimous also. For this reason if for no higher they do not want the difference between the majority in the town and the majority in the country on the saloon question to be made the grounds for a boycott or this form of antagonism.

The opponents of open saloons want to do nothing to support the contention that closing saloons hurts business or kills a town. With the understanding that the City of Maysville recognizes itself as an integral part of Mason county, that it recognizes the principle of majority rule, that a law-abiding citizen obeys the law, not only such laws as he happens personally to approve, moreover that he aids in bringing to punishment violators of the law, the country people will have the good sense to buy where the goods and the price suits them regardless of differences of opinion.

Too Wise to Provoke a Boycott. The majority of the business men of the city are too right-minded and too far-sighted to organize in opposition to the expressed will of a majority of the people of Mason county to perpetuate in Mason county an institution that the majority believes to be a menace to the general welfare, thereby arousing an element that believes it to be the patriotic duty of the majority to forego all consideration of advantage or convenience and to weaken the power of a minority that refuses to accept the verdict of a fair election.

Another Opportunity to Be Sensible and Magnanimous. The business men of Maysville are honorable and right-minded. There is no doubt that many who permitted their names to be attached to the petition to country voters to perpetuate the saloon, did so at the overrunning solicitation of the liquor men and that they now look upon the action as ill-judged and ill-advised; that they are chiefly concerned to conduct a business satisfactory to their customers and profitable to themselves; and that on all questions of public policy they are willing to abide by the expressed will of a majority of the people. For all such merchants and business men there should be only the most cordial good will and friendly relations.

The next move is there's waste in courts and in long legal processes, time, energy and money when any man who can read the signs of the times must see that the unlightened and awakened conscience of the people will no longer allow the wreckage for which the liquor traffic is responsible? Here is another opportunity to be "sensible if not magnanimous."

Face the Future. No man under fifty years of age should espouse the cause of the liquor traffic. The future is with those who are working for its extermination. If men over fifty find their brain cells hardening and so imbedded with the liquor arguments that they will have to be soaked out of them in the ground, so let it be. But younger men should march with their own regiment toward the sunlit hills of the future—not cling to a decadent system that belongs to the past. Let us get together for a sober, industrious, frugal citizenry and we can not fail to have a prosperous, happy, country and city. It is up to you Business Men of Mays-

The chance of a lifetime. A great sale of unusual importance. This announcement is worthy of your consideration. It is really worth your while to make a mental note of and come here to see the merchandise whether you are in immediate need or not. A special sale of such unusual importance (at this time of the year) requires a little explanation. Now, just between us, we've got to raise money, not just a few dollars, but a great big bunch. We've got to have it in the next few days, and that without fail. We calculate that fifteen days of good selling, like merchandise at these prices ought to sell, \$15,000 will just about turn the trick, and therefore we've made the prices tempting enough to attract your attention.

NIGHT SCHOOLS

Second Series To Open October 5—Finance Campaign Is Planned—100,000 Enrollment.

Frankfort, Ky., Oct. 1.—With 100,000 students enrolled, 2,000 moonlight schools will open for the second series October 5. Mrs. Cora Wilson Stewart, secretary of the Illiteracy Commission, is here supervising the work of sending supplies to the teachers who have volunteered to hold moonlight schools. In order to look after this work, Mrs. Stewart canceled all of her institute dates for this week.

Mrs. Stewart has had a conference with Mrs. Gilmer Speed Adams, of Louisville, president of the Colonial Dames, regarding the finance campaign which will be inaugurated in November. The campaign will be conducted under the name of the Women's Forward Movement. It will last five weeks and the direct aim and purpose is to secure funds to finance the Illiteracy Commission in the work in the "moonlight schools."

Considerable interest in the "moonlight schools" has been aroused among the teachers by prizes to be awarded by Senators Ollie M. James and J. N. Camden and Congressman Contrill Fields, Langley, and Speaker Champ Clark.

A NEW FAD—WILL IT EVER BE POPULAR?

The latest fad in society is the "tub cure." In this cure the patient arises just as the crisp air of the morning is mellowed by the first sunbeam. An ordinary wash tub is then filled with hot water and soap suds, into which various articles of linen are thrown. After they are thoroughly saturated the patient takes them up one at a time and rubs them briskly up and down on a washboard placed in the tub. This is kept up until the hands, face and feet are a glowing pink. The patient then goes into the open air and stretches for that purpose. The completing task first announced in the tub and is entitled to a prize. It is a sport and also invigorating exercise.

CIRCUIT COURT.

A MILLION DEAD

In Titanic War---Mighty Struggle Continues In all Its Horrors

Germany To Yield Only to Overwhelming Odds

LATEST WAR BULLETINS

London, England, Oct. 1.—The battle of the Aisne, now nearing the end of its third week, will soon outstrip in respect of time the great contest fought at Mukden, nearly ten years ago, but still no decisive result has been gained by either side.

The French official communication this afternoon, which was condensed in thirty words, was one of the shortest given to the public since the war began. It says that progress has been made by both wings of allies, but gives no details or the extent of the progress between the lines.

Military experts however, believe that "the great claws," as they have been described, continue to open to clutch at the outspread German army.

The artillery has played by far the most important part in the struggle, but on the German right the lighter guns are doing most of the fighting with a stubbornness and disregard of life, which many people said modern soldiers have never displayed before.

More French Artillery.
The French have brought up additional artillery, including some big naval guns, which are credited with being able to outrange the German guns by 700 yards, and which are being used to drive the Germans out of their strongly fortified positions. Both sides appear to be full of confidence. The Germans, who are bringing up reinforcements, are in what appears to be almost impregnable positions and are using them skillfully, fighting firmly to retain them.

The allies, on the other hand, place their hopes in the arrival of reinforcements on their left and the possibility of finding a weak spot in the German front. The Indian troops should now be with the British army, the official bureau having today permitted the publication that they landed in France on Friday last.

Of course it is not known where the Indian troops are going, but it is believed that the left wing will be stiffened by them. Some of the territorialists have also reached the field. These include the London Scottish, one of the best of England's volunteer regiments recruited from Scots in London. They have reached a high state of efficiency. Among them are a number of men who competed with the United States for the Palma trophy.

Before long there will be a considerable, instead of a small, British army in France. Belgium has again become the scene of serious operations. The invaders so far have confined their attacks to the forts protecting the rivers between Malines and Antwerp. A German report says that two forts have been silenced, but the Belgians deny this.

You can tell pretty well whether it is civilized warfare by noting the amount of tribute it exacts. When a successful army demands only a couple of hundred thousands of dollars that is barbarism. If a man gives up after a woman has run him down she probably will decide she doesn't want him. But if he keeps on trying to get away she redoubles her efforts to tie him fast.

About the only distinction the average married man may hope to achieve is that of being a good provider. Buck Kilby, who is married, says his idea of a sensible man is a bachelor.

PEACE SUNDAY

To Be Observed at Church of the Nativity Sunday Morning, October 4.

In accordance with the request of His Excellency, the President of the United States and the instructions of the Rt. Rev. Lewis Burton, Bishop of the Diocese of Lexington, on Sunday next, October 4th, a special prayer service for the peace of the European countries, now engaged in war, will be held at the Church of the Nativity. This service will be held at 10:45 Sunday morning.

It is the request of the Bishop of the Diocese and the Rector of the Church that every member be in his or her place in the church at this service. A cordial invitation to attend is extended to the public.

Mrs. Sallie Ricketts of the Hill House left Tuesday for Worthington, Ind., for a visit to her daughter and her family.

DOCK CRECELIOUS IN MORE TROUBLE.

Frankfort, Ky., Oct. 1.—The Franklin county grand jury this afternoon returned three indictments against Dr. C. F. Crecelious, Secretary of State charging him with obtaining money by false pretenses.

The facts upon which this was based are supposed to be that he employed a new stenographer at a salary of \$100 the month, but while she was being shown the work by Crecelious' sister the latter received \$75.00 of the salary, the check being payable to the stenographer, Mrs. Mayme Y. Stone, who cashed it and retained only \$25 for herself. He is also charged with farming and selling State offices.

HUMAN WELFARE.

The Bombay (India) government has issued an official manual of instruction to those interested in forming co-operative societies.

Six States—Indiana, Massachusetts, New York, New Jersey, Wisconsin and Pennsylvania—have established state systems of industrial education and contribute state moneys to its furtherance.

Birmingham, England, where over 90 per cent of the public comfort stations are pay institutions as contrasted with the free stations of most American cities, reaps an annual profit of \$2,000 from this form of public service.

A city must pay its own water works department for water used for fire protection, declares the Indiana public service commission, which asserts that a city may not conduct its water for profit. This will result in reducing water rentals and increasing taxes making the taxpayer pay for fire protection pro rata as he is protected.

Two-fifths of the country's population live in cities of 8,000 inhabitants or more.

PUTTING COAL IN THE SHOW-CASE.

(Coal Age.)

The United States Steel Corporation and its subsidiary companies, propose to have a comprehensive exhibit of its operations at the Panama-Pacific Exposition, in San Francisco, 1915. In addition to the material exhibits, the Corporation expects to show, by moving pictures, its coal and coke operations throughout all departments, and all the ramifications of the processes used at its different plants. It will also set forth the work which it has done toward the social welfare of its employees and those depending on them, and will exhibit many forms of safety devices which have been conceived by its officials and employees. Aid and care for the injured, and the voice given to its employees through their committees, will also be demonstrated.
